Standard Operating Procedures for the Piper PA46 Matrix, Malibu, Mirage & Meridian Aircraft (Spanish Edition)

Richard Rochfort

Standard Operating Procedures for the Piper PA46 Matrix, Malibu, Mirage & Meridian Aircraft (Spanish Edition) Richard Rochfort

The procedures set forth in this document are derived from the National Business Aircraft Association pro forma SOP. They are adapted to apply to the challenges associated with mid-level altitude single pilot/owner-pilot operations typical of the PA46. The methodology in this SOP is modeled after the Cape Air training and SMS. I encourage each PA46 pilot to:

- Study and adopt these Standard Operating Procedures
- Train to ATP standards at least twice per year with an underwriter approved type-specific instructor pilot, in your aircraft using well organized checklists, flows and memory items.

Dick Rochfort, ATP, CFII
