Tefal Preference Stewpot with Lid, 24 cm From Tefal

New Prometal Pro Interior – Tefal’s premium multi-layer non-stick coating reinforced with ultra hard minerals assures the most resistant non-stick, with added ceramic hard base for stronger protection against scratches and abrasion. Engineered for rigorous use, even with metal utensils.

Non-Stick Exterior – These aluminium pots and pans have strong non-stick outer, making the pans easy to clean both inside and out.

Stainless Steel Stamped Base – the heavy gauge aluminium achieves optimum heat distribution with the stainless steel stamped base ensuring durability. Suitable for all heat sources including induction, this specially designed base delivers impressive results.

Bakelite Handles – handles with polished stainless steel inserts are oven proof up to 180c.

Glass Lids – For easy monitoring, with stainless steel rims for added style.

Thermo-spot – Tefal’s unique heat indicator lets you know when your pan is pre-heated to the right temperature to seal the flavour in your food.

Tefal owes its origins to a Frenchman, Marc Grégoire, and his wife, Colette. M. Grégoire, a keen fisherman, wanted to make his rod reel in more smoothly and, in the 1950's, experimented to see if a non stick coating might provide the answer. It did! But it was his wife who made the real breakthrough by gently suggesting that coating the cooking pans would have a more worthwhile application by making them easier to cook with and simpler to clean. Now, Tefal is the number one name in non-stick products and small appliances, operating in over 120 countries. Tefal remains committed to making household tasks easier and cooking results better, through a constant flow of new ideas and technology.
